Marine Discovery Center

The **Marine Discovery Center** was founded twenty years ago with the mission to protect and restore Florida's coastal and Indian River Lagoon ecosystems through education, research and community stewardship. We believe strongly in using hands-on, feet-wet programming to connect people to the diversity and awe of our coastal waters.

Each year over 5,000 children and over 25,000 community members participate in education and restoration projects that protect the Indian River Lagoon. We depend on community support to help us monitor species diversity and water quality and provide scholarships for disadvantaged youth to get outside and connect to the natural world.

By becoming a patron and/or sponsor you are pledging your support for Florida's coastal ecosystems and helping to build a legacy for Florida conservation.

Friends of Canaveral, Inc.

As the official fundraising partner *Friends of Canaveral*, a 501 (c) (3) non-profit volunteer organization, assists the National Park Service in its mission to preserve and protect Canaveral National Seashore, by raising funds and public awareness, and by promoting the ethic of stewardship of this truly special place. *Friends of Canaveral* play an active and direct role in supporting a wide variety of projects and programs that may be outside the scope of the Seashore's budget. Some of these include:

- Youth education programs
- Visitor interpretive programs
- Restoration of historic buildings

There are several ways you can become involved in supporting the Park. Please visit our website at: <http://www.friendsofcanaveral.com>
